

RajyaRank vs. Coaching Apps

Sales Reference · Sept 2026

Cheaper per student than the generic alternative — built only for competitive government exam prep.

1 · The real cost is per student

₹6/mo

Starter · ₹1,499/mo ·
≤250 students

₹4.7/mo

Growth · ₹6,999/mo ·
≤1,500 students

₹3/mo

Pro · ₹14,999/mo ·
≤5,000 students

Annual = 10 months' price for 12. 15-day free trial at real limits before any payment.

2 · Compare vs. generic coaching SaaS (illustrated for a 500-student institute)

	RAJYARANK	CLASSPLUS	TEACHMINT	"₹0-SUB" TOOLS
Monthly cost	₹6,999 flat	~₹2,083 flat ¹	~₹12,500 flat ²	₹0 + 5% of fees ³ ≈ ₹25,000
Fee % as you grow	Drops: 3%→1.5%→0.5%	Flat, no rev-share found	Flat, no rev-share found	5% forever, scales up
Built for govt. exams?	Yes — purpose-built	No — any subject	No — school ERP	No — generic
AI readiness diagnostics	Yes	No	No	No

1. Classplus "Advanced," ₹24,999/yr (Techjockey, Sept 2026). 2. Teachmint entry tier, ~₹1,50,000/yr (SoftwareSuggest, Sept 2026). 3. Illustrative: 5% of ₹5L/mo collected fees. Third-party prices change — confirm live rates before quoting.

3 · "What about PhysicsWallah / Utkarsh / EduGorilla?"

CONTENT BRAND Physics Wallah

Sells individual courses direct to students (~₹4,000–5,000 each, one-time) — not licensable software. **Reframe:** the fix isn't matching PW's price, it's giving your students PW-level content under your own institute's name, plus diagnostics PW doesn't have.

CONTENT BRAND Utkarsh Classes

Same category as PW — a coaching brand, not a platform. Course pricing ₹1,000–24,000/subject; test series ₹100–500 each. **Reframe:** every rupee sent to Utkarsh is a student relationship your institute doesn't keep.

ACTUAL PLATFORM EduGorilla (Gibbon)

The one real platform comparison — white-label, listed "from ₹49" but that's a modular starting price, not a full quote (needs a sales call, no public caps/tiers). **Reframe:** RajyaRank's ₹1,499–₹14,999 tiers are the whole platform, stated upfront.

4 · What's actually new — not just cheaper

AI

Exam Readiness Score — 5-factor weighted diagnostic, not a raw %.

AI

Adaptive Study Plan — rebuilds around real mistake evidence daily.

EXAM-SPECIFIC

Reviewed Current Affairs — maker/checker workflow, not a raw feed.

COMMERCE

Dual pricing — institute rate + public marketplace rate, same course.

AI

Mistake DNA — classifies why an answer was wrong.

EXAM-SPECIFIC

66 govt. exams — UPSC/SSC/Banking/Rail/Defence/PCS, PYQs built in.

GOVERNANCE

Role-separated content — writer ≠ publisher, MFA-gated, audit-logged.

BILINGUAL

Hindi/English native — every question, lesson, notice — not UI-only.

5 · "New" doesn't mean "unproven"

- ✓ 15-day free trial at real limits, before any payment.
- ✓ Transparent numeric plan tiers — no "contact sales" pricing.
- ✓ Revenue share drops as the institute grows (3%→1.5%→0.5%).
- ✓ Already onboarding real paying institutes — not a beta.

6 · Say this out loud

30-SECOND PITCH

"For about ₹3 to ₹6 a student a month, RajyaRank gives an institute what five different vendors can't: an AI-diagnosed readiness score, real exam content, and institutional-grade governance. It's not another coaching app — it's the only one built for one exam ecosystem: yours."

Internal sales reference. RajyaRank figures from current production pricing (Sept 2026). Competitor figures from public vendor listings — confirm live rates before quoting a customer.
