

CUSTOMER SHOWCASE

See RajyaRank Running, Not Just Described

Every screenshot in this document is captured live from the running platform — a real student account mid-preparation for BPSC Prelims, and a real institution's Academic Head console. No mockups, no placeholder text.

Prepared for: Customer showcase & evaluation · **Covers:** Student learning · Test-taking & Mistake DNA · Institution operations · Trust & security

1• A Real Product, Not a Mockup

RajyaRank is a bilingual (Hindi & English) exam-preparation platform for government-exam aspirants, built around one question every student actually has: **"what should I study today?"** It ships as two purpose-built applications — a student learning app, and a completely separate staff/institution portal — each scoped to exactly what that person needs to do.

The screens on the following pages are not concepts. They were captured directly from a local instance of the running product: a demo student ("Demo Student", targeting BPSC Prelims) who has worked through real lessons, sat a real timed test, and built a real 5-day study streak; and Green Valley Institute's Academic Head console, showing that institute's own students, content pipeline, at-risk signals and settlement ledger.

Super Admin

How to read this document: Student-facing pages follow immediately below, then institution/admin pages, then a short trust & security summary. Each page pairs one real screen with a short explanation of what it demonstrates.

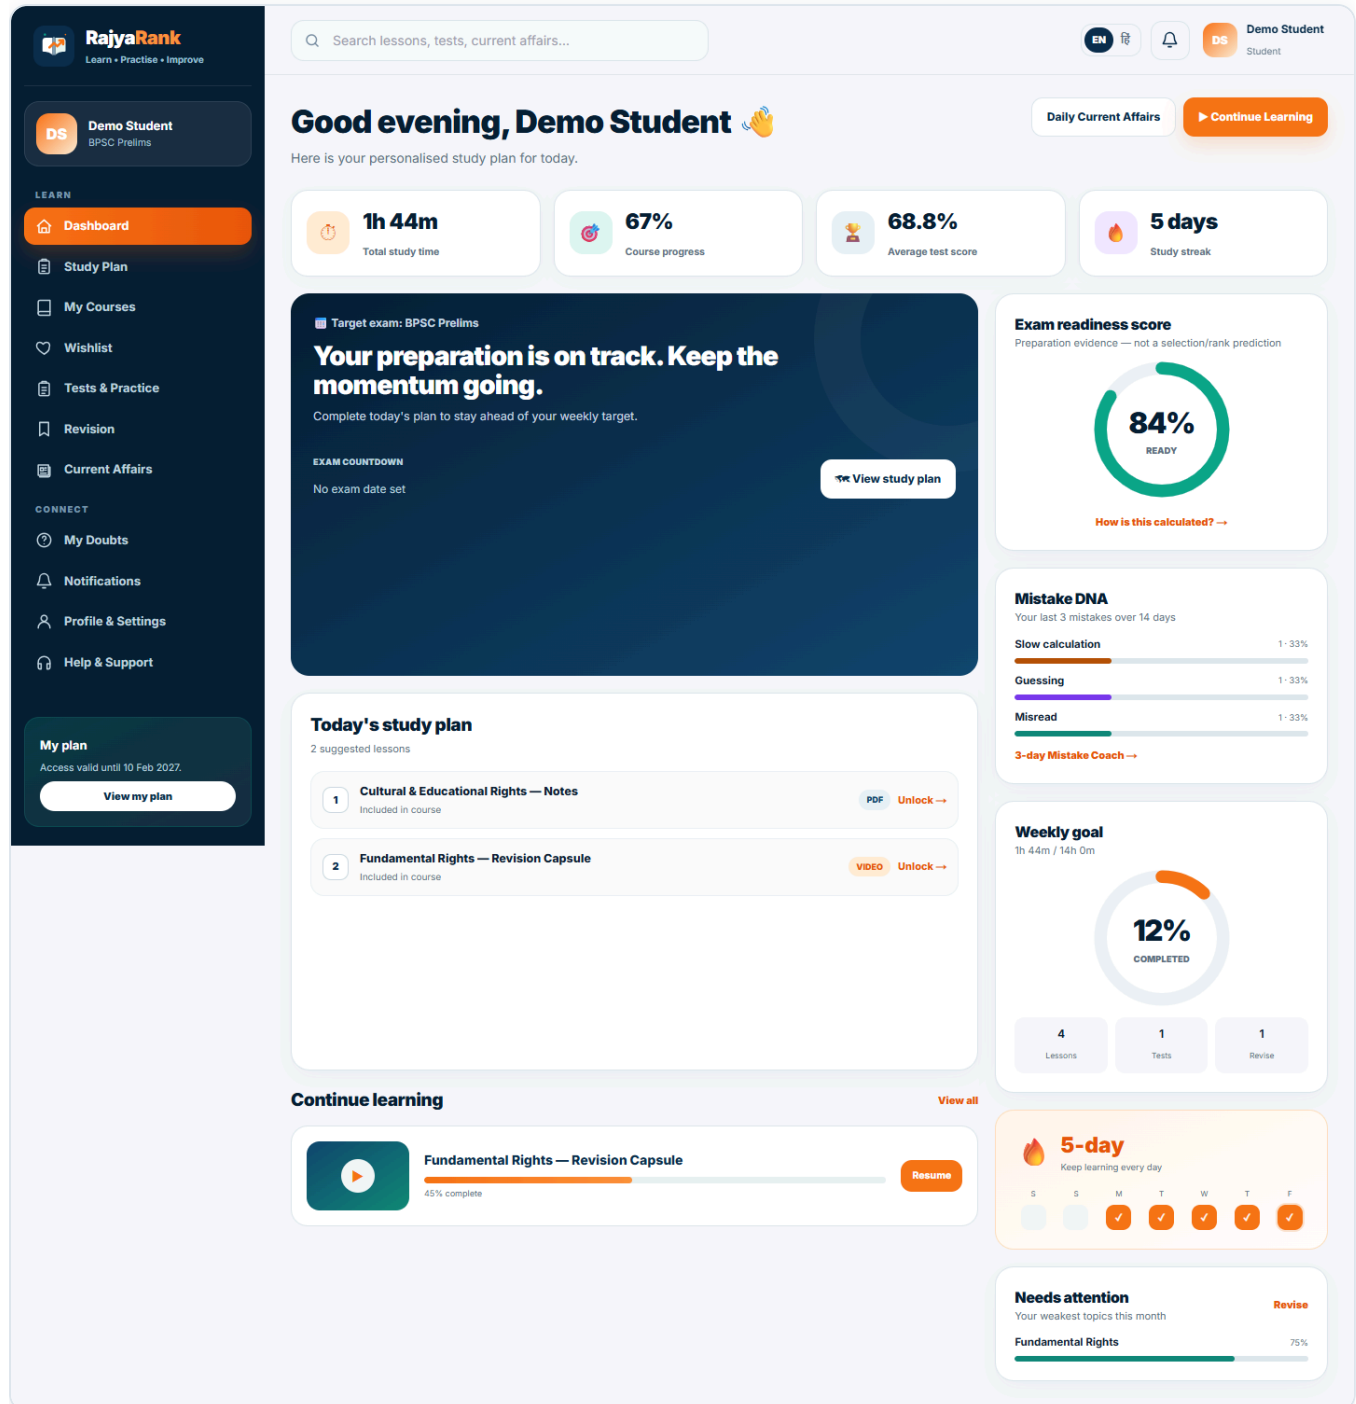

PART ONE

For Students

From "just enrolled" to exam-ready — the daily flow a student actually lives in.

2. Dashboard — Readiness Score & Streak

The dashboard answers "what now?" the moment a student opens the app: an auto-generated today's plan, a continue-learning shortcut, and an **Exam Readiness Score** — a single, transparent, weighted number (concept mastery, syllabus coverage, revision retention, test efficiency, consistency) computed live from real activity, with a "how is this calculated?" explainer rather than a black box.

Demo Student's real dashboard — 84% readiness, a 5-day study streak, 67% course progress and a 68.8% average test score, all computed from actual lesson and test activity below.

Streak & weekly goal

Continue learning

A visible 7-day activity strip and a weekly-minutes ring keep momentum concrete, not abstract.

Resumes the exact lesson and position a student left off — no hunting through the curriculum.

FOR STUDENTS

3• Mistake DNA — Why You Got It Wrong, Not Just That You Did

Most platforms mark an answer red and move on. RajyaRank classifies *why* it was wrong — a genuine concept gap, working too slowly, guessing under time pressure, or simply misreading the question — using real signals (time spent per question against the test's pace, and prior mastery on the linked concept). That classification feeds the dashboard's Mistake DNA card and the study plan's next drill.

Review answers

16.5/24 marks · 9 correct · 3 incorrect · 0 unanswered

[Back to tests](#)

[View weak topics](#)

1. Article 14 of the Constitution guarantees which of the following?

Correct · +2

A. Equality before law and equal protection of laws

✓ Correct answer · your answer

B. Freedom of speech and expression

C. Right to constitutional remedies

D. Protection against exploitation

Explanation: Article 14 guarantees equality before the law and equal protection of the laws to all persons.

2. Article 15 of the Constitution prohibits discrimination on grounds of religion, race, caste, sex or:

Correct · +2

A. Place of birth

✓ Correct answer · your answer

B. Educational qualification

C. Political affiliation

D. Income level

Explanation: Article 15 prohibits discrimination on grounds of religion, race, caste, sex or place of birth.

3. Which Article abolishes untouchability and forbids its practice in any form?

Correct · +2

A. Article 15

B. Article 17

✓ Correct answer · your answer

C. Article 18

D. Article 21

Explanation: Article 17 abolishes untouchability and forbids its practice in any form.

4. How many freedoms are originally guaranteed under Article 19(1) of the Constitution?

Correct · +2

A. Four

B. Five

C. Six

✓ Correct answer · your answer

D. Seven

Explanation: Article 19(1) guarantees six freedoms (speech, assembly, association, movement, residence, profession) after the Right to Property was removed.

5. Protection against arrest and detention in certain cases is guaranteed under which Article?

Incorrect · -0.5

Why this went wrong: Slow calculation

A. Article 20

B. Article 21

C. Article 22

✓ Correct answer

D. Article 23

✗ Your answer

Explanation: Article 22 provides protection against arrest and detention in certain cases.

6. Article 20 protects a person against conviction for offences EXCEPT for violation of the law in force at:

Correct · +2

A. The time of the trial

B. The time of the commission of the act

✓ Correct answer · your answer

C. The time of the arrest

D. The time of sentencing

Explanation: Article 20 protects against ex-post-facto laws — a person can only be convicted for violating the law in force at the time of the act.

7. Traffic in human beings and forced labour is prohibited under which Article?

Correct · +2

A. Article 21

B. Article 22

C. Article 23

✓ Correct answer · your answer

D. Article 24

Explanation: Article 23 prohibits traffic in human beings and forced labour (begar).

8. Article 24 prohibits the employment of children below what age in factories or mines?

Incorrect · -0.5

Why this went wrong: Guessing

A. 12 years

B. 14 years

✓ Correct answer

C. 16 years

✗ Your answer

D. 18 years

Explanation: Article 24 prohibits employment of children below 14 years in factories, mines or hazardous work.

9. The Bonded Labour System (Abolition) Act, which gives effect to Article 23, was enacted in:

Correct · +2

A. 1966

B. 1976

✓ Correct answer · your answer

C. 1986

D. 1996

Explanation: The Bonded Labour System (Abolition) Act was enacted in 1976 to give effect to Article 23.

10. Article 29 protects the interests of minorities primarily in respect of:

Correct · +2

A. Language, script and culture

✓ Correct answer · your answer

B. Property ownership

C. Political representation

D. Employment quotas

Explanation: Article 29 protects any section of citizens having a distinct language, script or culture of its own.

11. Article 30 gives minorities the right to:

Incorrect · -0.5

Why this went wrong: Misread

A. Establish and administer educational institutions

✓ Correct answer

B. Reserved seats in Parliament

✗ Your answer

C. Separate electorates

D. Exemption from taxation

Explanation: Article 30 gives all minorities the right to establish and administer educational institutions of their choice.

12. Which Article lists the Fundamental Duties of Indian citizens?

Correct · +2

A. Article 51

B. Article 51A

✓ Correct answer · your answer

C. Article 48A

D. Article 39A

Explanation: Article 51A, added by the 42nd Amendment (1976), lists the Fundamental Duties.

Full review of a completed Fundamental Rights sectional test — 16.5/24, 9 correct, 3 incorrect, each wrong answer explicitly tagged (Slow calculation, Guessing, Misread) alongside the correct answer and a plain-language explanation.

Why this matters: a student who guesses needs more timed practice; a student with a genuine concept gap needs to re-watch the lesson. Treating those as the same problem wastes revision time — Mistake DNA tells the study plan which one it actually is.

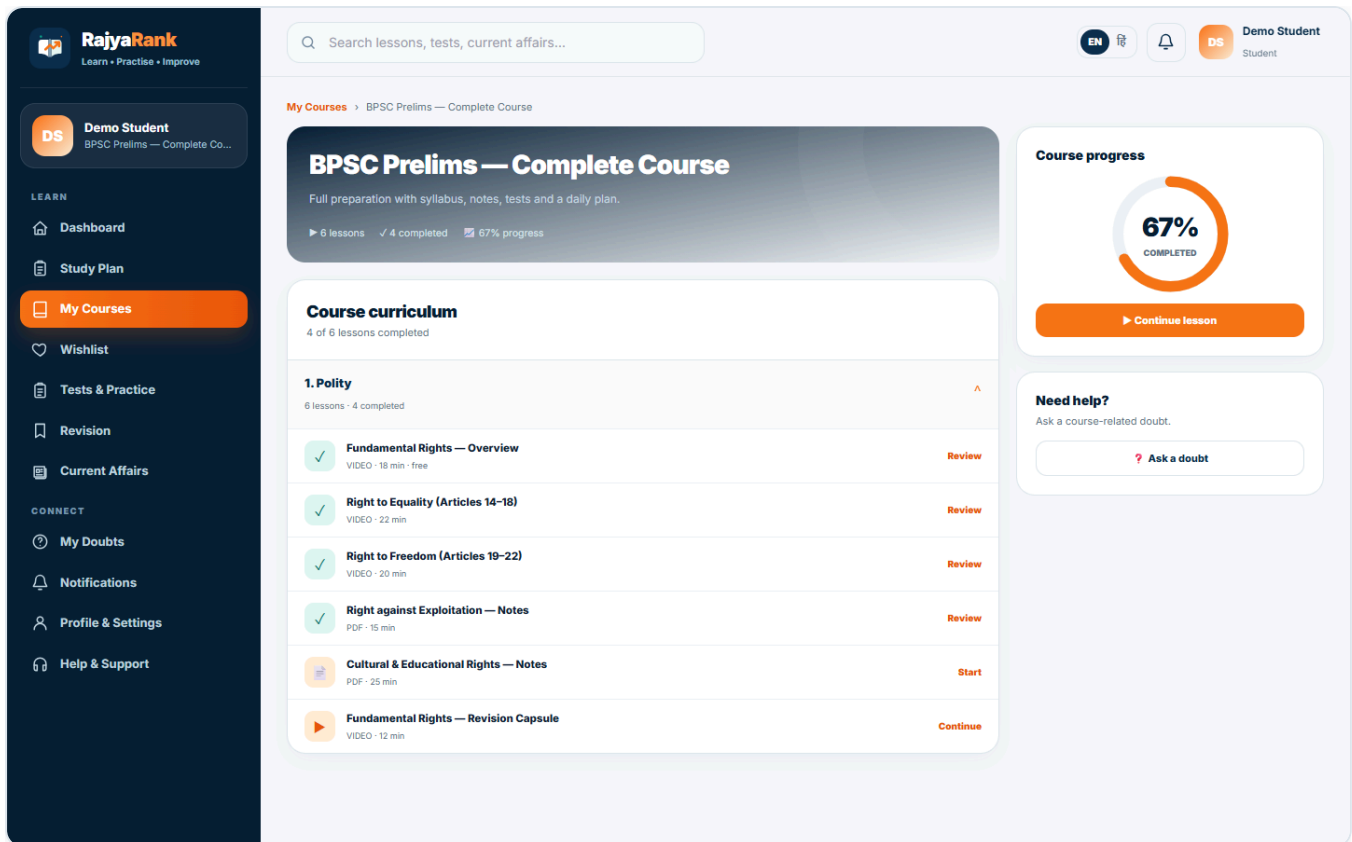

FOR STUDENTS

4. Lesson Player — Structured, Bookmarkable, Doubt-Linked

A distraction-free video/PDF player sits inside the same Subject → Chapter → Topic → Lesson structure the curriculum is authored in — never a flat, unsorted video list. Every lesson carries a stated learning outcome, a bookmark toggle, a completion flag, and a one-click "ask a doubt" against that exact lesson.

The screenshot shows the RajyaRank Lesson Player interface. On the left is a dark blue sidebar with the RajyaRank logo and navigation links under 'LEARN' (Dashboard, Study Plan, My Courses, Wishlist, Tests & Practice, Revision, Current Affairs) and 'CONNECT' (My Doubts, Notifications, Profile & Settings, Help & Support). The main content area has a search bar at the top and a breadcrumb trail: Dashboard > My Courses > Right to Equality (Articles 14-18). The lesson title 'Right to Equality (Articles 14-18)' is displayed above a large video player. The video player shows a play button and the title 'Right to Equality (Articles 14-18)' with the instruction 'Click play to start'. To the right of the video player, there is a 'Key learning outcome' box stating 'Article-by-article breakdown of the Right to Equality with landmark case law.' Below that is a 'Need help?' section with the text 'Ask a lesson-related doubt.' and a button labeled '? Ask a doubt'. At the bottom of the main content area, there are three buttons: 'Bookmark', '? Ask doubt', and 'Completed' (which is highlighted in green).

"Right to Equality (Articles 14-18)" — one of six real, bilingual lessons in the demo student's BPSC Prelims course, already marked Completed.

The curriculum this lesson lives in — 4 of 6 lessons completed (67%), with a one-tap "Continue lesson" and a course-level progress ring.

FOR STUDENTS

5• Test-Taking — Timed, Bilingual, Auto-Saved

A proper exam interface: a question palette (answered / marked-for-review / not-visited), a running countdown, autosave on every answer, and auto-submit when time runs out. Scoring happens entirely server-side — the correct answer is never sent to the browser before submission, so there's no way to inspect it early.

 **RajyaRank**

Instructions

Each correct answer carries marks; negative marking may apply. Your answers are auto-saved.

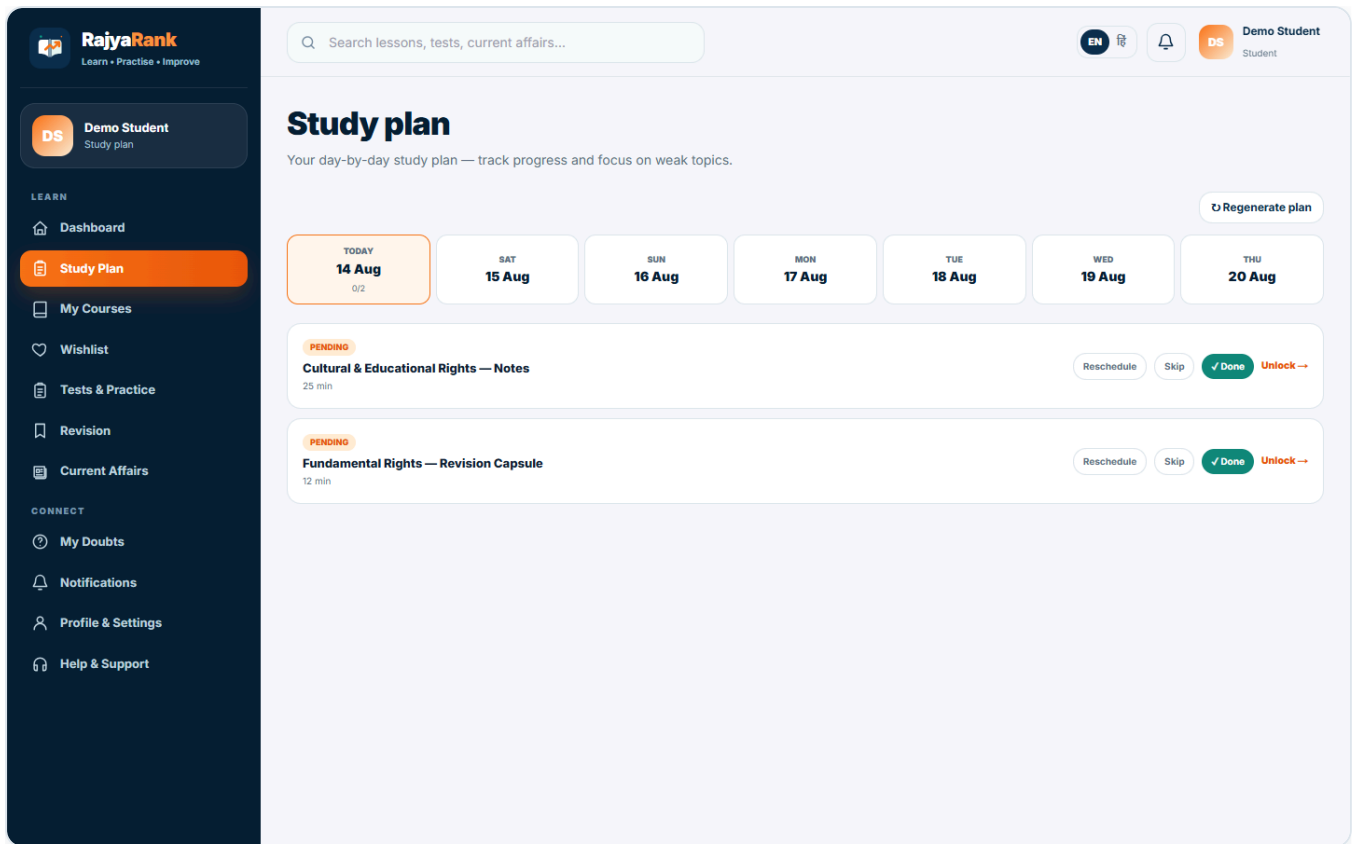

An in-progress attempt — Section 1, Question 2 of 6, with the answer palette, timer and mark-for-review controls visible on the right.

Under the hood: a single-attempt policy prevents retaking a completed test to "fix" a score, and negative marking, sectional timing and a configurable passing score are all set per test by the academic team — never hardcoded.

FOR STUDENTS

6• Study Plan — A Daily To-Do List That Rebuilds Itself

The adaptive study plan bin-packs remaining lessons into each day's time budget, mixes in drills on the student's weakest topic, and lets a student reschedule or skip any item — it regenerates automatically rather than silently going stale after a missed day.

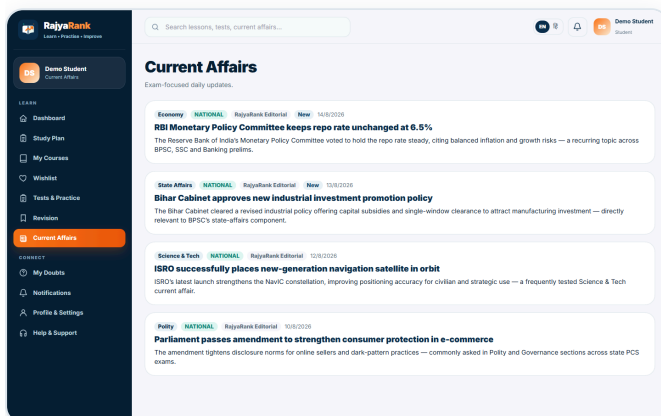

Today's plan, regenerated after the demo student's test attempt — two pending items pulled straight from their real remaining curriculum, with Reschedule / Skip / Done actions and a 7-day strip to plan ahead.

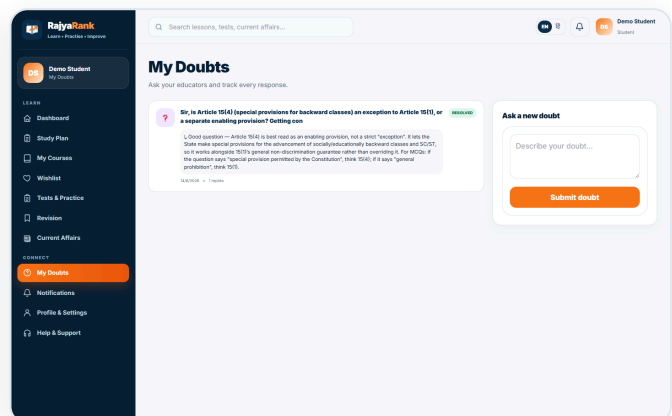

FOR STUDENTS

7• Current Affairs & Doubts — Daily Updates, Direct Access to Teachers

A running, exam-tagged current-affairs feed sits alongside an in-app doubt system: a student asks against a specific lesson, question or test, and gets a threaded reply from a real educator — tracked to resolution, not lost in a chat app.

Daily current-affairs feed, tagged by category and exam relevance.

A resolved doubt thread, with the teacher's full explanation attached.

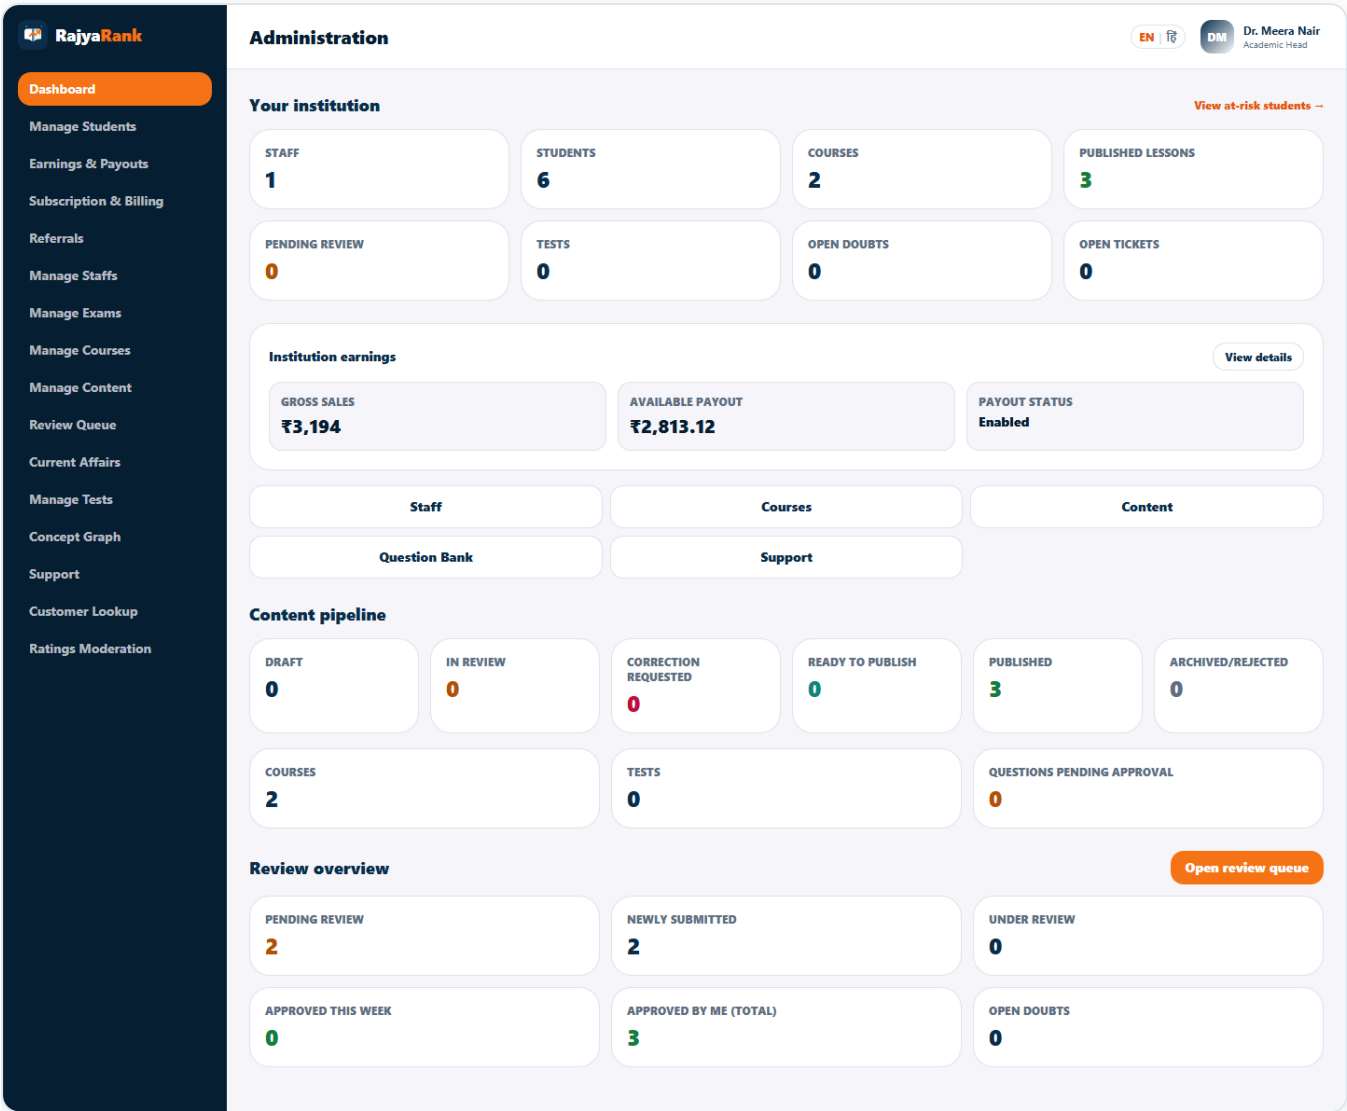

PART TWO

For Institutions

Everything a coaching institute needs to run and monetise its own operation on the platform.

8. Institution Dashboard — One Screen, Everything That Matters

An Academic Head lands on a single overview scoped strictly to their own institution — staff, students, courses, published lessons, content-pipeline health and earnings — with zero visibility into any other institution on the platform.

Green Valley Institute's real console — 6 enrolled students, 3 published lessons, ₹3,194 in gross sales and a content pipeline with 3 items published this cycle, 2 under review.

9. Content Operations — Maker/Checker, Enforced

Content moves through Draft → Submitted → Under Review → Correction Required / Approved → Published — and the person who writes a lesson is never the one who publishes it. Publishing itself requires the content.publish permission plus a step-up MFA check, not just a role label.

The reviewer's own queue — scope-filtered to what's actually assigned to them, with View / Start review / Reject on every item.

FOR INSTITUTIONS • DIFFERENTIATOR

10• Intervention Radar — Catch At-Risk Students Before They Drop Off

Most platforms show an Academic Head a list of students. RajyaRank surfaces the handful who actually need attention *this week* — flagged automatically by inactivity, falling behind the study plan, a real score decline, or a repeated mistake pattern — sorted by risk level, refreshed hourly. This is the single clearest differentiator against a plain LMS: intervention happens before a student silently disengages, not after they've already left.

Intervention Radar

EN

₹

DM

Dr. Meera Nair
Academic Head

Your institution's students flagged by inactivity, falling behind their study plan, a score decline, or a repeated mistake pattern — sorted by risk level. Refreshes hourly.

STUDENT	RISK	FLAGS	INACTIVE DAYS	PLAN ADHERENCE	SCORE TREND	DOMINANT MISTAKE
Ritika Kumari 9876500001	HIGH	Inactive Score decline	9	22%	61% → 38%	Concept gap
Aman Verma 9876500002	MEDIUM	Behind plan Repeated mistake	3	44%	58% → 52%	Guessing
Suraj Yadav 9876500003	LOW	Behind plan	1	68%	60% → 64%	—

Green Valley Institute's live radar — one HIGH-risk student (9 days inactive, score dropped 61%→38%, dominant mistake: concept gap), one MEDIUM (behind plan, repeated guessing), one LOW (mildly behind plan) — each with the exact evidence behind the flag, not just a red dot.

Explainable by design: every flag shows its own inactive-days count, plan-adherence percentage, before/after score trend and dominant mistake type — an Academic Head can see exactly why a student was flagged, and act on the real cause instead of guessing.

FOR INSTITUTIONS

11• Earnings, KYC & Payouts — Transparent, To the Rupee

Institutions sell their own courses through the platform with a KYC-verified linked payout account and an automated settlement engine that splits gateway fees, platform commission and net payout — the same marketplace model as a modern multi-vendor platform, with every rupee traceable from sale to bank settlement.

₹650	₹9.8	₹1.76	UTR2026081298765	Settled	10/08/2026
₹780	₹12	₹2.16	UTR2026080912345	Settled	05/08/2026

Green Valley Institute's real payout statement — ₹3,194 gross sales split into internal (institute-priced) vs. external (public-priced) orders, technology fees, marketplace commission and refund reserve, down to a ₹2,813.12 settlement payable and 2 real bank settlements with UTR references.

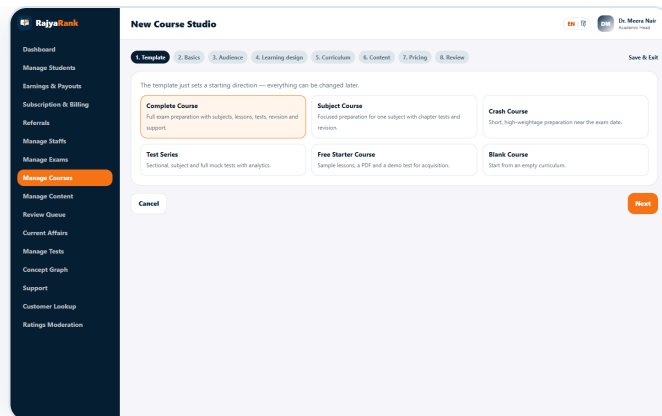

FOR INSTITUTIONS

12• Staff & Course Operations

An Academic Head invites staff by role directly from the console, and builds new courses through a guided, template-driven studio — basics, audience, learning design, curriculum, pricing, review — that autosaves as they go, so a half-finished course is never lost.

Staff roster with role, status and last login, plus a one-form staff invite.

Course Studio's guided template picker — the first of eight autosaving steps.

BUILT TO BE TRUSTED

13• Built for Trust & Scale

None of this is bolted on afterward — it's the same standard every screen above is built to.

- **Bilingual by default.** Hindi-first, English throughout — every lesson, question, current-affairs item and notification carries both, not a machine-translated afterthought.
- **Strong authentication.** Hashed passwords (argon2id), refresh-token rotation with reuse detection, and step-up multi-factor authentication for high-risk staff actions like publishing content or granting a refund.
- **Assignment-scoped RBAC.** Access depends on role *and* what a staff member is actually assigned to (state / exam / course / subject / batch) — never role-name alone, and every check is re-verified server-side, not just hidden in the UI.
- **Full tenant isolation.** An Institution Head's console — everything shown in Part Two of this document — is scoped to their own organisation alone, enforced at the data layer.
- **Protected content delivery.** Paid video/PDF is served only through short-lived signed URLs, with optional watermarking — never a permanent, shareable public link.
- **Verified payments.** Razorpay order signatures and webhooks are cryptographically verified and handled idempotently — a payment can never be accepted unverified or double-counted.
- **Full audit trail.** Every sensitive action — publish, refund, role change, entitlement grant — is written to an append-only audit log: who did what, when, and whether it was allowed.

Role	What they can do
Super Admin	Platform-wide oversight: institutions, billing plans, roles & permissions, payments, refunds, marketing content, audit trail.
Institution Head	Runs one institution end-to-end — staff, students, courses, content, payments — scoped to their own organisation only.
Content Admin	Creates and edits courses, lessons and questions at scale — the "maker" side of the review workflow.
Academic Reviewer	Reviews, approves and publishes content and mock tests — the "checker" side.
Support Agent	Handles student support tickets and doubt escalations.

See It Live, On Your Own Content

Every screen in this document is a real, running instance — not a design file. The best next step is a guided walkthrough of the student app and the institution console together, using your own course content and cohort.

[Request a Guided Walkthrough](#)
